200L

HOW TO USE

DEEP FRYER

Scrap off or hose down to remove excess grease. Fill up to 10 cm from the top using cold water. Dilute 1:27-1:40 and boil the solution for 30 minutes. Drain and flush hot water. Scrub the grease residue while it is still warm. Rinse well with potable water, then wipe dry.

GRIDDLE

Prepare a 1:1 solution and apply liberally using a cloth or brush, apply the concentrate directly to walls, racks, burner and glass. Let work for 5-15 minutes. Stubborn areas may need light rubbing using a soft nylon scrubbing pad. Rinse well with potable water, then wipe dry.

OVEN

Preheat oven to 80°C (180°F) then shut-off before applying. Using a brush, apply the concentrate directly to walls, racks, burners and glass. Let work for 5-15 minutes. Stubborn areas may need light rubbing using a soft nylon scrubbing pad. Rinse well with potable water, then wipe dry.
