

# AUTO DISH RINSE AID

Eco ChemLabs Rinse Aid is a heavy duty drying agent that sparkle dishes, glasses, pots and all other eating utensils providing spotless and streak less drying. It permits speedy and smooth evaporation by decreasing surface tension of water.

Direction: Rinse aid liquid is compatible with all water dispensing systems and can be directly injected into rinse water supply system. The Rinse Aid premium formulation is powered with water softener that keeps dishwasher deposit free. For best results it requires exact adjustment. Inject at the rate of 1ml for every 2 liters of water. Adjust for optimum sheeting action.

Note: Surfaces subject to direct contact with food need to thoroughly rinse with portable water.

Packaging  
Available  
4L & 20L

## PRODUCT FEATURES

- Excellent performance
- Recyclable and reduced packaging
- Streak less drying
- Enhanced formulation
